Subject: Tri-City Properties - 2000 Enforcement Case Discussion

Stef - Would you be available to meet on Monday, July 28 1-1:30 pm instead of the proposed time on Wednesday, July 30th? If not, please suggest an alternative date and time next week.

Thanks.

All - The purpose of getting together is to review EPA's enforcement case including nature and extent of violation and the implications it may have on the anticipated permit application, e.g., permittee-responsible onsite mitigation, closing the violation, etc.

Carol
